Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 1-10 are rejected under 35 U.S.C. 102(e) as being anticipated by Peterman et al 6,325,159. Peterman shows a method/system for use in the replacing of liquid in a riser (52 & 42 which includes 230) of the kind used in the recovery of petroleum offshore, the riser (52) forming a connection between a wellhead (4) on or above the sea floor (6) and a drilling vessel (1), a drill pipe (60) extending from the drilling vessel (12) down to, possibly through the wellhead, characterized in that a body (236), which is arranged to keep the liquids separate and is connected to the drill pipe (60), is displaced longitudinally of the riser (52) together with at least a portion of the drill pipe (60).

As concerns claim 2, Peterman shows the liquid displaced from the riser (52) by the body (236) flows to the drilling vessel (12) through one or more pipes (fig 2c).

As concerns claims 3 and 10, Peterman shows the device by a riser (52) of the kind used in the recovery of petroleum offshore, the riser (52) forming a connection

Art Unit: 3671

between the wellhead (4) on or above the sea floor and a drilling vessel (12), characterized in that a body (236) displaceably sealing against the inner wall of the riser (230) is placed in the riser (52) and connected to the drill pipe (60).

As concerns claim 4, Peterman shows the body (236) is connected to a drill pipe (fig 2c).

As concerns claims 5 & 8, Peterman shows the body (30) is connected to and/or forms part of a hanger tool (240).

As concerns claim 6, Peterman shows the body (30) is connected to and/or forms part of a hanger tool (240).

Response to Arguments

3. Applicant's arguments filed 06/04/07 have been fully considered but they are not persuasive. Applicant's arguments are noted; however, as clarified in the rejection above 236 is inside the riser element 230 in figure 2c.

Conclusion

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
